

IQNavigator Client The TriZetto Group Featured at 2010 Human Capital Summit

Session Will Focus on the “Seismic Shift toward Contingent Labor”

DENVER, Colorado – March 18, 2010 – IQNavigator, Inc., a leading provider of solutions that help global companies manage spending on contract workers and outside services, today announced the inclusion of their client, The TriZetto Group, as a featured presentation at the 2010 Human Capital Summit taking place at the JW Marriot Starr Pass Resort in Tucson, AZ.

Speaker Jeb Evans, AVP of Resource Management, The TriZetto Group, will present “The Seismic Shift Toward Contingent Labor – The New Norm” in a breakout session on Tuesday, March 23, at 3:15 p.m.

During uncertain economic times, companies worldwide are shifting workforce planning and strategy from a fixed labor cost model to a more flexible, scalable, pay-as-you go services procurement and contingent labor model. In his presentation, Evans will discuss the ways this flexible model has become the “new normal,” and how it provides significant opportunities for short and longer-term cost savings, talent and skill acquisition, governance, transparency and oversight.
